

You can help to feed hungry kids in our community.

Drive to Feed Kids™

Changing lives one meal at a time

Did you know?

- 16 million children in America live in households struggling with hunger.
- 1 in 5 kids in the U.S. routinely go hungry.
- Malnutrition impedes brain development in children.
- Food insecurity affects rural areas, too. The highest poverty rates are in rural counties.
- The effects of child food insecurity are serious and can last a lifetime.

We know 2,407 kids in Pulaski County are struggling with this problem right now. We are asking you to help.
